Fashion Connect Ireland 2024

## **Here's how it works!**

**Firstly, you must complete and sign an N.D.A. ( Non-disclosure Agreement).**

### **What is an N.D.A?**

An NDA, or Non-Disclosure Agreement, is a legally binding contract that establishes a confidential relationship between us and you. The main purpose of an NDA is to protect sensitive information, proprietary knowledge, or trade secrets that one party discloses to another from being shared with third parties or used without permission.

### **Pricing**

If you would like a price regarding samples, we first need to do a time and motion study.

### **What is a time and motion study?**

A time and motion study allows us to time our team making a sample of your product and calculate the cost of making it in the most efficient time.

### **How much does it cost?**

This depends on the product and the time and steps involved in making it. The sampling rate is €20.00 per hour plus VAT for the time and motion study and technical prototype. The price of the production of this product will be determined by this study.

### **What happens next?**

If you would like us to make a sample and calculate the cost of this, please see the checklist attached.

### **How do I book in?**

You can post your completed checklist (attached) with your items to the address below.

### **Consultation?**

If you would like some help and advice regarding your sample, you can avail of a free 20 minute consultation or you can book in for a longer consultation with us here at a cost of €60 per hour.

### **What do I need?**

Everything you need to provide is on the following checklist.

# CHECKLIST

Please ensure to include ALL of the following items/information:
